

Taking care of your revenue cycle, so you can take care of your patients

We are an industry-leading revenue cycle solution provider for U.S.-based hospitals and healthcare organizations. The revenue cycle is our exclusive focus. Our seasoned team, deep knowledge of local payor environments, proprietary technologies, and tailored solutions help maximize outcomes for our clients — so they are reimbursed for their services and can continue delivering on their missions. We offer a full spectrum of revenue cycle support:

What makes us different (and better)?

- Tailored, **compassionate patient interactions** that treat individuals with the same care that you do
- **On- and off-site capabilities** that streamline communications and minimize the burden on your staff
- State-of-the-art **service centers** and best-practice, evidence-based **workflows** that improve accounts receivable effectiveness, consistency, accuracy, and quality
- Compliant processes that **mitigate your risk** while optimizing **net patient revenue** and **cash collections**
- **Automated web-based follow-up technology** that ensures unparalleled third-party account oversight
- **Billing expertise** for all types and sizes of facilities, systems, and payors

What's the bottom line benefit to you?

Our solutions can enhance your cash flow and collection rates, rapidly reduce your accounts receivable backlogs, and improve your workflows. Through our comprehensive RCO services, for example, our clients can see **net cash increases of 3 to 5%**. We have collected billions of dollars for our clients — enabling them to continue delivering on their community commitments — and we can help you too.

Contact us today for a complimentary analysis of your A/R.
